

Your business, built to its full potential.

Agency OS is a growth firm for established, owner-led businesses. We find where a business can earn more and work less, build the systems that make it happen and stay on to keep them running.

ONE ENGAGEMENT, FOUR STEPS

Consult

FREE · 30 MINUTES

A conversation with a partner who has run businesses. Within two days, a one-page note on where we see the upside, yours to keep.

Assess

TWO TO FOUR WEEKS

We hear from your whole team and put a value on every opportunity. You keep The Upside Report: a priced 60 to 90 day plan.

Build

THREE TO EIGHT WEEKS

Fixed scope, fixed price and a finish date in writing. We build around how you already work and train your team.

Support

MONTHLY

We keep it running, make the small changes and bring you the next win at a quarterly review. Month to month.

WHAT YOU KEEP

- Every account and key in your name
- The system, the data and the work made for you
- Our toolkit, licensed to you for good
- A fixed price for each stage, never billed by the hour
- A finish date in writing, and a reply within one business day

WORK WE HAVE DONE

The Possibility. Apps for iPhone, Android and the web that bring author Jim Curtis's coaching method to everyone, with a console for his team. More than 8,000 members in the first six weeks.

Small College Consulting. A new website and the Small College Hub, where more than 1,000 college leaders and consultants meet, plus a tool to find and vet administrators.

Truman State University. Earlier work by the partners: a rebuilt website, followed by 19% more application starts in the first admission cycle.

“Agency OS redesigned our website beautifully, quickly, and cost-effectively.”

Chris Coons, Partner, Small College Consulting

THE PARTNERS

Justin Sloan, Chief Executive, more than 20 years building businesses · Eric Yerke, Partner, Design and Build · Dr. James Vineburgh, Partner, Systems and Data. All three have owned and run businesses of their own.
